

Simple instructions to save entries into a pdf form.

- 1 Go to <http://www.soc.duke.edu/graduate/forms.html> and download pdf995.
- 2 Double click pdf995.exe. It will install a new printer to your computer that will create pdf files.
- 3 Fill in the pdf form (It will warn you that you can not save changes).
- 4 After completing the form, print the document using pdf995 as the printer.
- 5 Make sure you know what directory to which the file is being printed.
- 6 You will now have a new pdf document with the information inserted.
